National Astronomical Observatories/Changchun Observatory
Chinese Academy of Sciences

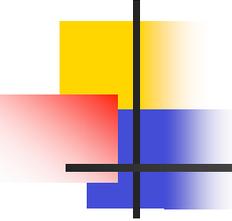

Day and Night Time Passes Oct 2002 - Sep 2003

Problems for Changchun

- Bad pointing
- Mount model
- Separation of emitting and receiving parts of the telescope
- Control range gate
- Installing narrower filter
- Detector on the front of telescope

Work done

- System stability improvement
- Astronomical knowledge
- Mount model adoption
- Mechanical work
- New control system
